Web Development Skills: MySQL, MongoDB, Express.js, Node.js, Heroku, GitHub, Debugging, MERN Stack Development, React, Database Theory, Agile Methodology, Netlify

Computer Languages: HTML5, CSS3, JavaScript

PROJECTS

Baes | github.com/missatrox44/baesii | loversnotfighters.herokuapp.com/

- Baes is a full MERN stack application created to improve relationships by allowing users to store pertinent information about important people in their lives.
- Users have the ability to create an account, update their profile, add connections and store personalized notes about their connections.
- Focused on styling of admin page, setting up backend server and creating type defs and resolvers
- Utilized HTML, CSS, JavaScript, MongoDB, Express, React, and Node.js

Git Me There | github.com/missatrox44/git-me-there | andcooke.github.io/git-me-there/

- Git Me There is a tool for users to utilize when planning a trip and need to decide on transportation. Users type in a city in the US and will be given a walking score, bike score and eateries in the area.
- Coordinated a team of five developers with a focus on front end development. Implemented styling and layout of the project.
- Utilized 3rd party APIs, Materialize, HTML, CSS, and JavaScript

Fact or Fiction | github.com/missatrox44/Fact-Fiction | factorfiction.herokuapp.com/

- Fact or Fiction is a game where users will be presented with a random law or headline and must determine if it is true or false. 50 points will be added to the user's score for every correct answer.
- Led a team of five developers with a focus on back end development. Developed functionality of the game, built pages with handlebars, created and seeded a database and troubleshooted routes.
- Utilized MySQL, Handlebars, HTML, CSS, JavaScript, Express and wrote API routes

EXPERIENCE

Ector County Independent School District; Odessa, TX

Aug 2021 - July 2022

Robotics Teacher - Crockett Middle School

- Led six classes of 7th and 8th grade students
